ELEEP Policy Recommendations for Energy and Climate Change BRUSSELS/ROTTERDAM CONFERENCE AND STUDY TOUR 14-17 MAY 2014

**ELEEP Policy Recommendations
For Energy and Climate Change**
Brussels/Rotterdam Conference and
Study Tour
14-17 May 2014

Introduction
Ecologic Institute and the Atlantic Council of the United States co-organized the Brussels/Rotterdam Conference and Study Tour, which was funded by the European Union (EU) and other donors. In early 2013, the ELEEP Network was awarded additional support from the Robert Bosch Stiftung, which provided for two study tours and other events in the second half of the year. The ELEEP Network has received additional funding from the European Union under the auspices of the EU's "Transatlantic 2nd Learning Dialogue (EU-US 2012)" with the goal of strengthening and the Atlantic Council will conduct "The ELEEP Energy and Climate Dialogue" from January 2014 through mid-2014. In addition to a second round of funding from the European Union, the Robert Bosch Stiftung also provided a second round of support for ELEEP through mid-2014. ELEEP is a dynamic, membership-only forum for the exchange of ideas, policy solutions, best practices, and professional development for emerging American and European leaders working on or around environmental and energy issues. ELEEP currently has approximately 400 members, split between the US and the EU. ELEEP members provide policy advice based on their experience and local, high-efficiency study tours addressing environmental, climate and energy issues. A group of ELEEP members gathered in Brussels on 14 May 2014. The study tour lasted from 14 to 17 May 2014.
