Finanzierung	<ul style="list-style-type: none">• Europäische Kommission, Generaldirektion Umwelt (GD Umwelt)
Jahr	2003
Umfang	30 S.
Projekt	Wirtschaftliche Bewertung des Grundwasserschutzes
Projektnummer	1961
Inhaltsverzeichnis	<ol style="list-style-type: none">1 CONTEXT AND OBJECTIVE OF THE STUDY2 SUMMARY OF THE LITERATURE REVIEW<ol style="list-style-type: none">2.1 ENVIRONMENTAL ECONOMICS AS A TOOL FOR POLITICAL DECISION MAKING2.2 PECULIARITIES OF GROUNDWATER2.3 THE COSTS OF GROUNDWATER PROTECTION AND REMEDIATION<ol style="list-style-type: none">2.3.1 Different cost categories of groundwater protection and remediation2.3.2 The cost-efficiency of different protection instruments2.3.3 Costs of Remediation2.4 THE BENEFITS OF GROUNDWATER PROTECTION<ol style="list-style-type: none">2.4.1 Benefits estimated as Avoided Damage2.4.2 Benefits estimated as Willingness to Pay2.4.3 Indirect and Ecosystem Values2.5 COMBINING COSTS AND BENEFITS<ol style="list-style-type: none">2.5.1 The role of economics in setting target values and defining policies3 CASE STUDIES<ol style="list-style-type: none">3.1 CASE STUDY ON POTASH MINING FIELDS, ALSACE<ol style="list-style-type: none">3.1.1 The field site3.1.2 Objective and methodology3.1.3 Cost of groundwater protection and restoration measures3.1.4 Technical efficiency of groundwater restoration measures3.1.5 Costs and benefits of accelerated cleaning-up3.1.6 The benefits of early action3.2 CASE STUDY ON NITRATE AND PESTICIDE POLLUTION, ALSACE<ol style="list-style-type: none">3.2.1 The field site and objective of the case study3.2.2 Methodology3.2.3 The cost of groundwater pollution during the last 15 years3.2.4 Looking at the future3.3 CASE STUDY ON DIFFUSE AGRICULTURAL POLLUTION, DRASTRUP (DENMARK)<ol style="list-style-type: none">3.3.1 Methodological Objectives3.3.2 The Drastrup project cost benefit analysis

- 3.3.3 Impact of an implementation delay on costs and benefits
- 3.3.4 Sensitivity to economic parameters
- 3.3.5 Sensitivity to the pollutant travelling time between the surface and the aquifer
- 3.3.6 Sensitivity to combined variation
- 3.3.7 Conclusion and implication
- 4 LESSONS LEARNT AND IMPLICATIONS FOR THE GROUNDWATER DIRECTIVE
- 4.1 ALIMITED NUMBER OF EXISTING STUDIES
- 4.2 LIMITATIONS OF ECONOMICS AS A DECISION SUPPORT TOOL
- 4.3 IMPLICATIONS FOR THE FORMULATION OF THE GROUNDWATER DIRECTIVE
- 5 REFERENCES
