## The Emerging Leaders in Environmental and Energy Policy Network (ELEEP)

### Project

### Duration

Apr 2015 - Aug 2017

### [ELEEP project website](#)

The Emerging Leaders in Environmental and Energy Policy Network (ELEEP) is a joint project of the Ecologic Institute and the Atlantic Council. Launched in fall 2011, ELEEP is a dynamic, membership-only forum for the exchange of ideas, policy solutions, best-practices, and professional development for early and mid-career American and European leaders working on environmental and energy issues.

ELEEP currently has about 100 members, split between the US and the EU. Members debate topics of the day online and meet regularly for study tours and other face-to-face activities. ELEEP is financially supported by the European Union, the Robert Bosch Stiftung, and the Allianz Foundation for North America.
