

Recommendations for Greening Freight Transport

ETTAR Policy Brief 1

Publication

[Policy Brief](#)

Citation

Martinez, Grit and Alexander Neubauer 2008: Recommendations for Greening Freight Transport, Brussels.
Å

This Policy Brief is intended to reflect the conclusions from the ETTAR (Environmental Technologies, Training and Awareness-Raising) project so far and develop policy recommendations based on these conclusions. The ETTAR project is a project under the 6th Framework Programme (financed by the European Commission) and deals with the promotion of environmental technologies in the freight transport sector. The Policy Brief has been agreed within the ETTAR team and is directed at stakeholders in the freight transport sector, such as policy makers, logistics associations and transport NGOs. The [policy brief](#) [pdf, 191 KB, English] is available for download.
