Project

Duration

Jan 2015 - Jun 2016

On behalf of the German Environment Agency, Ecologic Institute is carrying out the discussion series "Improving climate protection  for Paris and beyond." As part of the project, several expert workshops provide a platform for different stakeholder representatives to discuss and evaluate developments of the climate regime, the status of the UN climate negotiations and the outcome of the 21st Conference of the Parties (COP21) to the United Nations Framework Convention on Climate Change (UNFCCC) that will be held in Paris in December 2015.

Participants include civil society and business representatives as well as representatives from science and politics.

In 2015, the following expert workshops have taken place:
