Table of contents

How can this document help you?
How to navigate this document?
How can economics support decision making in climate change adaptation?
Why should I use economics?
What does it involve?
A policy-led framework to adaptation economics
How are uncertainties taken into account in adaptation economic appraisals?
Why should you worry about uncertainties?
How can you consider uncertainties in decisionmaking?
Which methods are available?
Cost-Benefit Analysis
When to use it?
What are its key strengths and weaknesses?
What does it involve?
Good practice when applying cost-benefit analysis to adaptation
Cost-Effectiveness Analysis
When to use it?
What are its key strengths and weaknesses?
What does it involve?
Good practice when applying multi-criteria analysis to adaptation
Multi-Criteria Analysis
When to use it?
What are its key strengths and weaknesses?
What does it involve?
Good practice when applying multi-criteria analysis to adaptation
Real Options Analysis
When to use it?
What are its key strengths and weaknesses?
What does it involve?
Good practice when applying multi-criteria analysis to adaptation
Robust Decision Making
When to use it?
What are its key strengths and weaknesses?
What does it involve?
Good practice when applying multi-criteria analysis to adaptation
Iterative Risk Management
When to use it?
What are its key strengths and weaknesses?
What does it involve?
Good practice when applying multi-criteria analysis to adaptation
Portfolio Analysis
When to use it?
What are its key strengths and weaknesses?
What does it involve?

Good practice when applying multi-criteria analysis to adaptation
