Citation

Davis, McKenna et. al. 2017: Policy Recommendations for the EU Level: Supporting Participation in Adaptive River Basin Management. [BeWater policy brief no.2].

Policy brief 2 outlines the participatory approach developed within BeWater and presents recommendations targeting actors within European bodies and institutions dealing with adaptation planning and adaptation in water management. Aspects of EU policies that could pose a barrier to implementation of adaptation action are highlighted, and complemented with necessary actions to overcome such barriers. Policy brief 2 is available for download.
