# Reforming the EU: Climate Policies as the New Trade Mark of the EU

## Project

## Duration

Nov 2017 - Jun 2019

The EU has been going through a series of crises â from the Eurozone crisis and Brexit to controversy around migration, from external threats to the rise of Eurosceptic and nationalistic parties in some Member States. In response, the EU has embarked on an extensive process to reform itself.

Against this backdrop, the Ecologic Institute organises workshops on EU reform and its links to climate and energy policies. Workshops take place in [Tallinn](#), [Sofia](#) and [Bucharest](#) - in the context of the Estonian, Bulgarian and Romanian EU Presidency. A final conference in Berlin will conclude the project in spring 2019. The Ecologic Institute will present a study on the interlinkages between EU reform and climate and energy policy at the final conference.

## Funding

[Federal Ministry for Environment, Nature Conservation, Building and Nuclear Safety](#) (BMUB), Germany  
[Deutsche Gesellschaft fr Internationale Zusammenarbeit](#) (GIZ), Germany

## Partner

[Ecologic Institute](#), Germany

## Team

[Dr. Nils Meyer-Ohlendorf](#)

## Duration

Nov 2017 - Jun 2019
