

## Arctic Summer College 2017

### Project

### Duration

Jul - Aug 2017

The Arctic Summer College 2017 virtual campus was open to participating Arctic experts, specialists and students in July and August 2017. It provided information on a wide range of topics, including the regional impact of climate change on the Arctic, local challenges such as land use, energy production and distribution and food security, as well as activities in the Arctic Council and the need for a vision for the Arctic.

The [Arctic Summer College 2017 webinar series](#) is available on [YouTube Channel Ecologic Arctic Summer College](#).

Since 2012, the Arctic Summer College has been promoting the formation of a sustainable, policy-oriented network of Arctic experts. It brings together experts from different disciplines and regions to exchange ideas and discuss them.
