Bea, Manuel et. al. 2017: Market Scoping Report. Deliverable 6.1. H2020 Research project "Bridging the Gap for Innovations in Disaster Resilience (BRIGAIID)".

This report describes the work undertaken in the BRIGAIID market scoping exercise at the European scale. Its aim is to help the BRIGAIID innovators to identify those regions within Europe where potential business opportunities could emerge based on an analysis of the current and expected impacts of climate change and the current adaptive capacity at the regional level. The market scoping should facilitate the identification of markets that have a high potential of adopting innovative climate change adaptation measures whilst also differentiating between the specific hazards that BRIGAIID innovations address.

Table of contents

1. AIM OF THE MARKET SCOPING EXERCISE	
2. CONCEPTUAL FRAMEWORK	
2.1. Background and context	
2.2. Description of the BRIGAID framework for the market scoping exercise	
A) Estimation of current and expected impacts	
B) Estimation of adaptive capacity	
3. METHODOLOGICAL APPROACH	
3.1. Framing conditions for indicators	
3.1.1. Thematic domain: list of hazards considered	
3.1.2. Geographic domain: list of countries considered	
3.1.3. Temporal domain: time horizons considered	
3.1.4. Spatial scale of the final outcomes	
3.2. General methodology for calculation of indicators	
3.2.1. Definition and justification of indicators	
3.2.2. Calculation of indicators	
3.2.3. Analysis of limitations, data gaps and imputation of missing data	
3.2.4. Normalisation of data	
3.2.5. Weighting different indicators	
3.2.6. Grouping and presentation of results	
3.3. Specific methodologies and processes	
3.3.1. Hazard potential	
3.3.2. Exposed elements	
3.3.3. Potential Impacts	
3.4.4. Adaptive capacity	
3.4.5. Market attractiveness	
3.4. Overview of the indicators considered	
4. OUTCOMES OF THE MARKET SCOPING EXERCISE	
4.1. Presentation of results	
4.2. Exploitation of the final outcomes	
References	
List of abbreviations	
4	
APPENDIX 1. ASSESSMENT FRAMEWORKS	
APPENDIX 2. DESCRIPTION OF THE INDICATORS	
APPENDIX 3. PAN-EUROPEAN CLIMATE CHANGE INDICATORS AND LOADING CONDITIONS
