Ecologic Institute 2019: Plastik in der Umwelt: Sozialwissenschaftliche Forschung. Ãberblick
Ã¼ber ForschungsgegenstÃ¤nde, Ergebnisarten und Zielgruppen der Projekte mit
sozialwissenschaftlichem Anteil im BMBF-Forschungsschwerpunkt "Plastik in der Umwelt".
PlastikNet Poster Series. Poster.

How is a topic such as microplastics socially problematised? How can consumers use plastics more sustainably? And what role do the interests and perceptions of different actors play in international plastics regulation?

These and other questions are posed by social scientists in a number of joint research projects funded by the Federal Ministry of Education and Research within the framework of the [research focus "Plastics in the Environment"](#). In this poster series, social science research from ten joint research projects is presented and first interim results are briefly and concisely summarised.

The poster series was created for the [status conference](#) of the research focus "Plastics in the Environment" in order to give social science research more visibility within the research focus.
