

Further Development of the European Emission Trading Directive

Project

Duration

Oct 2018 - Feb 2020

Ecologic Institute is working with Öko-Institut and Prof. Dr. Klinski on a project for the Federal Environmental Agency (UBA) relating to constitutional, European law and state aid issues for the development of the European Emission Trading Directive. Ecologic Institute's contribution focusses on the interactions of the ETS Directive and further EU legislative acts with a potential Federal Climate Change Act.
