On 7 October 2019, Eurostat published its most recent flagship publication "Smarter, greener, more inclusive?". The report assesses the EU's progress in implementing the Europe 2020 strategy. Commissioned by Eurostat, Katharina Umpfenbach and Amely Gundlach of Ecologic Institute edited the chapter on climate change and energy. It discusses progress towards the so-called 20-20-20 targets which aim at cutting EU greenhouse gas emissions, increasing renewable energy supply, and improving energy efficiency. The publication is available for download.
