## Carbon-Pricing: Concepts, Regional Developments and Future Governance – COP25 Side Event

### Event

[Discussion](#)

### Date

16 December 2019

### Location

Madrid, Spain

### Speaker

[Prof. Dr. Michael Mehling, LL.M.](#)

Effective CO<sub>2</sub> pricing is crucial to achieve the global climate protection goals. This was the subject of an event that was carried out by the Ecologic Institute as a co-organizer as part of a formal side event at the 25th session of the Framework Convention on Climate Change (COP25) in Madrid.

The event's subject was CO<sub>2</sub> pricing. Experts interchanged their experiences on regional developments, presented basic concepts and discussed future strategies.

[Prof. Michael Mehling](#), board member of the Ecologic Institute in the USA, gave a lecture at the event about [CO<sub>2</sub> pricing at the European borders](#). A corresponding mechanism is part of the set of instruments that Commission President Ursula von der Leyen proposed as part of the concept of a "European Green Deal" – to protect European companies from the competition that is not affected by CO<sub>2</sub> pricing.

The event was realized with the [Taiwan Research Institute, Responding to Climate Change](#) (RTCC) and the [Institute for Climate Protection, Energy and Mobility](#) (IKEM) as the coordinating organization.

### Organizer

[United Nations Framework Convention on Climate Change](#) (UNFCCC), International

### Partner

[Ecologic Institute](#), Germany  
[Taiwan Research Institute](#) (TRI), Taiwan

[Responding to Climate Change](#) (RTCC), International  
[Institute for Climate Protection, Energy and Mobility](#) (IKEM), Germany
