[Research & Policy Analysis](#)

Topics

[Energy](#)
[Climate](#)

Ramiro de la Vega works as Researcher at Ecologic Institute, Berlin. His research focuses on European energy and climate policy and its associated social impacts. Ramiro is a native German and Spanish speaker and fluent in English and Italian.

During his work at Ecologic institute, Ramiro contributed to the evaluation of the [German National Climate Initiative \(NCI\)](#) and helped monitoring the progress of the Sustainable Development Goals (SDGs). Moreover, he was also involved in an [analysis of European long-term strategies to achieve climate neutrality](#) and a [policy brief on the promotion of green hydrogen by the G20](#).

□

Prior to working at Ecologic Institute, he worked as Research Assistant at [Deutsche Gesellschaft für Verbraucherstudien](#) (DtGV). There, he analysed and executed consumer studies within the context of sharing-economy and private retirement plans.

Ramiro holds a Master's degree in Public Economics (MSc) from Freie Universität Berlin, with a specialisation in environmental policy and the economics of climate change. He completed his Bachelor's degree in Economics and Politics at Hochschule für Technik und Wirtschaft Berlin.
