In our brochure "Ecologic Institute: Science and Policy for a Sustainable World", we introduce Ecologic Institute as a transdisciplinary research organization. Readers gain an overview of our capabilities in research, policy analysis, education, communication and stakeholder events. Suitable for clients, partners, funders and the interested public, the brochure describes the many ways that Ecologic Institute brings new insights into environmental policy.

Our new brochure, revised for the occasion of our 25th anniversary, is available for download.
