Federal Ministry for Environment, Nature Conservation and Nuclear Safety and Federal Environment Agency (eds.) 2020: Online Database: Sustainable Development Goal 12 – Ensure Sustainable Consumption and Production Patterns. URL: <https://www.sdg12.de/en>

SDG 12 'Ensuring sustainable consumption and production patterns' aims at the necessary changes in our lifestyles and ways of doing business. It requires that consumption and production take the limits of the earth into account and do not jeopardise universal human rights. Together with Adelphi and Wuppertal Institute Ecologic Institute set-up a database of activities in Germany, which contribute to implementing SDG12 in Germany. The database currently comprises more than 120 activities, including civil society and business initiatives as well as policy programs and actions. It offers searches based on specific sub-goals of the SDG 12, the type of activity (e.g. funding programs, industry initiatives ...), target groups (e.g. consumers, public sector ...) or stakeholder level (e.g. federal, civil society ...). The database can be accessed via:
