Altner, G&Wnter et al. (eds.) 2007: Jahrbuch Ökologie 2008]. Munich: C.H.Beck.

The Yearbook Ecology 2008 will be published at the end of September 2007. Ecologic is one of the institutes supporting this yearbook. This year's focus is on the effects of climate change, learning from nature, culture and lifestyle as well as environmental assessment.

The Yearbook Ecology:

- Informs about the ecological situation and trends in several sectors of the natural environment,
- Analyses and criticises public and international environmental policy,
- offers a discussion on important environmental issues,
- documents historical environmental events and initiatives,
- describes best-practice-examples and drafts visions for a sustainable world,
- is directed to an environmentally conscious public that searches for sustainable ways of interacting with nature,
- is dedicated to a broad understanding of ecology that includes the day-to-day relationship of human beings, nature, society and the environment.
