

## Transposition of the Renewable Energy Directive

### Project

### Duration

Dec 2011 - Jan 2013

In 2011 the Ecologic Institute analysed, within a consortium, the transposition of the Renewable Energy Directive in the national legislation of Germany and UK. As a follow-up, the consortium is now analysing the status of transposition in selected Member States. The Ecologic Institute is reviewing reports and working on technical notes related to Germany and UK.
