
ETTAR - Environmental Technologies Training and Awareness-Raising in the Transport Sector

Event

Conference

Date

9 September 2008

Location

Brussels, Belgium

The ETTAR project ended with its final conference in Brussels to discuss the conclusions reached by the working groups. A total of three workshops had been held in the year leading up to the conference.

Background notes were prepared in advance of the workshops and policy briefs were produced in order to disseminate findings and recommendations. A final report summarised these findings. In addition, a specification was written for an e-learning tutorial relevant to those working in this sector.

The following events formed part of the project:

Dialogue Forum, 9 September 2008, Brussels (Final Conference)

Transport and the Environment

Sustainable Freight Transport Chains. Goal or myth?

Workshop 3, 17-18 April 2008, Berlin

Transport and the Environment

The road ahead: training and awareness-raising that will encourage the freight transport sector to improve its environmental performance

Workshop 2, 24-25 January 2008, Prague

Transport and the Environment

Barriers to the take-up of more efficient transport and logistics planning and training and awareness raising methods

Workshop 1, 25-26 October 2007, Gothenburg

Transport and the Environment

Barriers to the take up of Environmental Technologies in the Transport Sector

Further information about the project can be found on the ETTAR website

Funding

European Commission, Directorate-General Research (DG Research), International

Organizer

Ecologic Institute, Germany

Partner

Chalmers University of Technology (Chalmers), Sweden
Cork Institute of Technology, Cork Institute of Technology (CTC), Ireland {Republic}
Deutsche Bahn AG (DB), Germany
ENVIROS, Czech Republic
University of Cambridge, United Kingdom

Team

Dr. Grit Martinez
Dr. Nils Meyer-Ohlendorf
Alexander Neubauer
Daniel Blobel
Max Grünig
Sören Haffer
Bianca Keilbach

Date

9 September 2008

Location

Brussels, Belgium
