[1]

On 29 October 2013, Eurostat published its most recent Flagship Publication 'Smarter, greener, more inclusive?'. The report assesses the EU's progress in implementing the Europe 2020 strategy. Commissioned by Eurostat, Katharina Umpfenbach and Krista Timeus of Ecologic Institute edited the Climate change and energy chapter. It discusses progress towards the so-called 20-20-20 targets which aim at cutting EU greenhouse gas emissions, increasing renewable energy supply and improving energy efficiency.
