Policy Assessment

Impact Assessment of EU Environmental Inspections

[1]

Many EU Directives are not sufficiently enforced in the member states and the EU commission considers the strengthening of its role in Environmental inspections. The project assesses the impacts of such a policy and analyses the different options to strengthen the role of the EU commission in environmental inspections.

The assessment focuses on three policy areas (water, nature conservation and trade with endangered species) and on five member states (Poland, Sweden, UK, Germany and Spain).

Funding

European Commission, Directorate-General Environment (DG Environment)

Partner

VU University Amsterdam, Institute for Environmental Studies (IVM), Netherlands

Partner

Institute for European Environmental Policy, London (IEEP), United Kingdom
Ecologic Institute, Germany

Team

Lucas Porsch

Team

Timo Kaphengst
