During the "E-World" event in Essen, Ecologic Institute's Wolfgang Urban gave a speech on the role of biomethan for the Federal Government's Energy Concept 2050. After shortly introducing the use options of biomethan, he presented political goals in this field, especially the Energy Concept 2050. In addition, he highlighted the possible contribution of biomethan to the achievement of these goals. Wolfgang Urban concluded his speech with suggestions for incentive tools regarding power and heat. The presentation slides are available for download.
