IGB) Javier Martínez-López (BC3) António Nogueira (UAVR) Ana Lillebø (UAVR) Tim O'Higgins (UCC) GerJan Piet (IMARES) Florian Pletterbauer (BOKU) Martin Pusch (FVB. IGB) Peter Reichert (EAWAG) Leonie Robinson (ULIV) Maja Schlüter (SRC)
Funding	<ul style="list-style-type: none"> • European Commission, Directorate-General Research & Innovation (DG Research & Innovation)
Year	2016
Dimension	87 pp.
Project	Knowledge, Assessment, and Management for Aquatic Biodiversity and Ecosystem Services Across EU Policies (AQUACROSS)
Project ID	2803
Table of Contents	<p>About AQUACROSS</p> <p>1 Background</p> <p>1.1 EBM definitions and policy application</p> <p>1.2 Expanding knowledge in the practical application of EBM approaches for the achievement of biodiversity targets in aquatic ecosystems</p> <p>1.3 Objectives of this Deliverable</p>

- 2 The AQUACROSS Concept
 - 2.1 Complex adaptive systems
 - 2.1.1 Interlinkages between ecological and socio-economic systems (and the cost of overlooking them)
 - 2.1.2 Policy implications of complex adaptive social-ecological systems
 - 2.2 Resilience as a management criterion to build sustainability
 - 2.3 Ecosystem-based Management
- 3 AQUACROSS Architecture: Information, Models & Tools
 - 3.1 Choosing the right foundations
 - 3.2 The AQUACROSS Architecture I: setting the structural components
 - 3.2.1 The supply-side relationship (from ecosystems to human welfare)
 - 3.2.2 The demand-side relationship (from social systems to ecosystem condition)
 - 3.2.3 Linking the demand and supply side analysis of ecosystem services
 - 3.3 The AQUACROSS architecture II: Heuristics
 - 3.3.1 A closer look to the information layers and flows within the AQUACROSS architecture
 - 3.3.2 The analytical models: how does one thing lead to another within the AQUACROSS architecture?
- 4 Conclusions and road ahead
- References
- 5 Annex 1 - Glossary (abridged version)
- 6 Annex 2 - Models and tools

Keywords

freshwater, coastal, marine, ecosystems, resilience, EU 2020 Biodiversity Strategy, nature conservation aquatic biodiversity, ecosystem-based management, Europe
