## Land Degradation Neutrality under the SDGs

### NATIONAL AND INTERNATIONAL IMPLEMENTATION OF THE LAND DEGRADATION NEUTRAL WORLD TARGET

[1]

The article "Land degradation neutrality under the SDGs: National and international implementation of the land degradation neutral world target" by Elizabeth Dooley, Ennid Roberts and Stephanie Wunder explores how the current momentum in international soil policy can be used to promote sustainable land use and reduce land degradation, particularly through the SDG process and using UN Conventions. It puts a special emphasis on the opportunities and challenges of the concept of "land degradation neutrality."
