Harmonisation of Good Ecological Potential for Heavily Modified Water Bodies (HMWB)

[1]

In the latest Work Programme 2016-2018 of the Common Implementation Strategy of the Water Framework Directive (WFD), the Water Directors of European countries agreed that a specific Ad-hoc Task Groups (ATG) should be set up on best practice and guidance on dealing with hydromorphology. Ecologic Institute has been commissioned by the Norwegian Environment Agency to provide to support and advice in the preparation of a report on the comparison of mitigation measures for the definition of good ecological potential (GEP) of heavily modified water bodies (HMWB).
