The DESSIN ESS Evaluation Framework

[1]

The framework and a practical example of its application were presented by Gerardo Anzaldua (Ecologic Institute), who led the working group developing the framework, and Nadine Gerner (Emschergenossenschaft), who led the application of the framework on three case study sites in a webinar on 15. September. The webinar includes an ample Q&A session with an extended group of members from the framework development team and lasted over an hour. You also can download the Power Point presentation that was used for the webinar.
