Sustainable Development in the European Union - 2017 Overview

OVERVIEW OF PROGRESS TOWARDS THE SDGS IN AN EU CONTEXT

[1]

Overview of the 2017 situation concerning selected SDG-related indicators.

EUROSTAT has issued its 2017 edition on Sustainable Development in the European Union. The report provides an updated snapshot of the current situation concerning a selected number of indicators related to the sustainable development goals (SDGs). This 'lite' version of the 2017 monitoring report makes use of the universal

language of visuals, offering a shortcut to the essence of the messages delivered through the full version of the monitoring report. It thus provides a snapshot of the key trends related to sustainable development in the European Union. Ecologic Institute's authors covered the chapters on SDG2 (Zero Hunger), SDG 6 (Clean Water and Sanitation), SDG 7 (Affordable and Clean Energy), SDG 13 (Climate Action), SDG 14 (Life Below Water), SDG 15 (Life on Land) SDG 17 (Partnerships for the Goals). The publication is available for download.
