Land Degradation Neutrality: balancing gains and losses

This infographic illustrates the basic principle of an extended indicator of land use and land-use change: worsening and improvements in land use are tracked and balanced against each other.

The infographic is licensed under a Creative Commons license CC BY-ND 4.0, i. e. it can be used without any changes, if the author is mentioned. The infographic is part of a series of three infographics on Land Degradation Neutrality (LDN) developed by Ecologic Institute.
