EFEX Conference: 2018 International Symposium on Energy Efficiency

Best
Practices
from
Across
the
Globe

On 26 June 2018, the International Symposium on Energy Efficiency will bring together leaders from all over the globe as part of the EFEX project to talk about the ways in which energy efficiency has proven to be not only a tool for meeting environmental and sustainability goals and commitments but also an opportunity to increase participation and prosperity in all segments of society. Registration for the conference is open, and you can still get in at the discounted early bird rate. You'll find further information including registration details on the project website.

ACEEE, one of the lead partners for EFEX, will host the conference and announce the results of their biennial International Scorecard measuring policies and practices of the highest energy-consuming countries. Speakers will discuss best practices and opportunities for innovation.

26 June 2018
Washington, DC
