Sustainable Energy and Resource Efficiency - Key Issues for Sustainable Development

TimeLoc

9 May 2007

New York, NY

United States

[R. Andreas Kraemer](#) [1]

Sustainable energy and resource efficiency to be achieved through efficiency in energy use, renewable energy supplies, and technological innovation was the subject of a panel discussion presented by the German Federal Ministry for Environment on the occasion of the 15th Session of the UN Commission on Sustainable Development (CSD) in New York, NY, on 9 May 2007. R. Andreas Kraemer of Ecologic Institute moderated the event.

The speakers were:

- Sigmar Gabriel, Federal Environment Minister, Germany and Presidency of the European Union
- Malik Amin Aslam, Minister of State for Environment, Pakistan and Chair of the Group of 77 at the United Nations
- Ian Pearson, Minister of State for Climate Change and the Environment, Department of Environment, Food, and Rural Affairs, United Kingdom
- Achim Steiner, Executive Director, United Nations Environment Programme
- Timothy Wirth, President, UN Foundation
- Valli Moosa, Non-Executive Chairman, ESKOM, South Africa

The panel discussion was covered by the Earth Negotiation Bulletin (ENB) on the side and a more detailed report including pictures can be found at www.iisd.ca/csd/csd15/enbots/9may2007.html [2]

Keywords: Sustainable energy, sustainable development, resource efficiency, resource conservation, material efficiency, UN CSD 15, VN CSD 15, UNEP, G77, IUCN, German Presidency of the EU, international environmental governance
