5 Years Ecologic Institute US

[1]

Cooperation across the Atlantic is part of Ecologic Institute's DNA. This year, the Ecologic Institute, Washington

DC,
turns 5
and
that
's
why
we
want
to
give
you
some
insights
into
our
Institute
in
the
US.

5 years ago, on Earth Day 2008, we founded the Ecologic Institute in Washington, DC. A recognized public charity under U.S. law, Ecologic Institute has since expanded its presence with a second office in San Mateo, California, and actively engages partners and stakeholders in government, academia, and civil society throughout North America. In our brochure we introduce our team and our programs in the US, give some insights into our project work on both sides of the Atlantic, and introduce our partners, donors, and networks. In conclusion, we demonstrate how our project value has increased in the recent years. The Ecologic Brief [5 Years Ecologic Institute US](#) [2] [pdf, 4.8 MB, English] is available for download.
