Event Description
The purpose of this webinar series is to discuss the challenges that power grid operators and electricity producers face in Germany and the United States with a changing climate and policy and investment measures for adaptation and resilience. The goal is to share knowledge and best practices, foster transatlantic dialogue and connections, and to think critically about how best to safeguard critical energy infrastructures. This webinar series is supported by the Berlin-based Ecologic Institute.

Day 1 – Investment solutions and protocols for Resilience (Thursday, December 9)

Topic	EST	CET
Introduction	11:00-11:10 AM	5:00-5:15 PM
Energy Sector and Climate Change Trends, Projections	11:10-11:20 AM	5:10-5:20 PM
Electricity Sector Climate Vulnerability	11:20-11:45 AM	5:20-5:45 PM
Panel – Best Practices in Climate Adaptation	11:45AM-12:15PM	5:45-6:15PM
Q&A	12:15-12:30 PM	6:15-6:30 PM
Break	12:30-12:40 PM	6:30-6:40 PM
Presentation – Technological Solutions for Resilience	12:40-12:50 PM	6:40-6:50 PM
Final Q&A	12:50-1:00 PM	6:50-7:00 PM
End of Day 1	1:00 PM	7:00 PM

Day 2 – Role of Policymakers and Policy Solutions (Monday, December 13)

Topic	EST	CET
Introduction	11:00-11:10 AM	5:00-5:15 PM
Presentation – German and EU Adaptation and Resilience Policies	11:10-11:20 AM	5:10-5:20 PM
Presentation – U.S. State-level Climate Adaptation	11:20-11:45 AM	5:20-5:45 PM
Panel – Policy Opportunities to Promote Adaptation in the U.S.	11:45AM-12:15PM	5:45AM-6:15PM
Q&A	12:15-12:30 PM	6:15-6:30 PM
Break	12:30-12:40 PM	6:30-6:40 PM
Discussion – Promoting Transatlantic Dialogue, Coordination with Industry	12:40-12:50 PM	6:40-6:50 PM
Final Q&A	12:50-1:00 PM	6:50-7:00 PM
End of Day 2	1:00 PM	7:00 PM
