

MPA
Community Network

Introduction to the Community

2025

Creation of the MPA-CN

It's origins

The MPA Community Network is an **umbrella initiative** launched by the **Blue4All project** and developed to centralise and connect MPA-related projects across Europe, as well as **fostering collaboration among MPA managers**, stakeholders, and conservation experts.

This initiative seeks to reduce fragmentation, improve coordination, and enhance networking for more effective marine conservation.

Core components

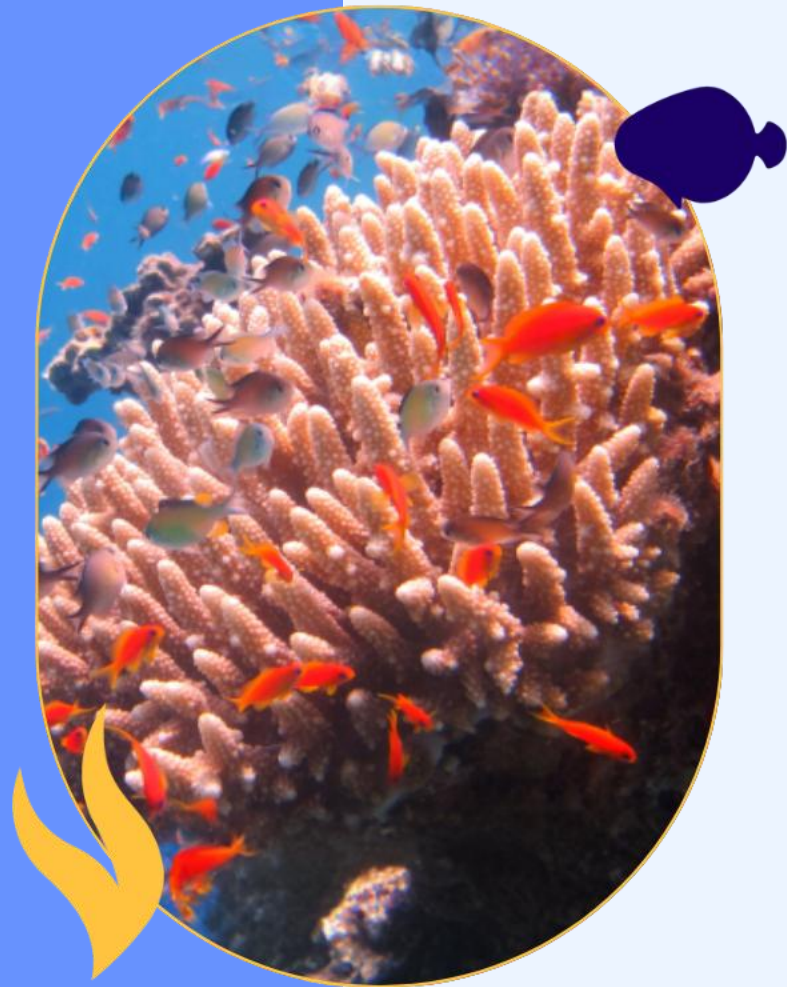

1) Website/ Blueprint Platform 2) The Networking Platform

3) Social Media

4) Cross-Project Collaboration

1) WEBSITE/ BLUEPRINTS PLATFORM

Tools & Blueprints

- Ecological tools
- Governance tools
- Financial tools
- Social tools

🚀 **To be launched February 2026** 🚀

Toolbox being developed by the CMCC Foundation

Tools & Blueprints

It will host all those tools being tested by **Blue4All project**, those to be developed by **Blue Connect Project**, and connect to all those resources being developed by other projects, so everything can be found in one place.

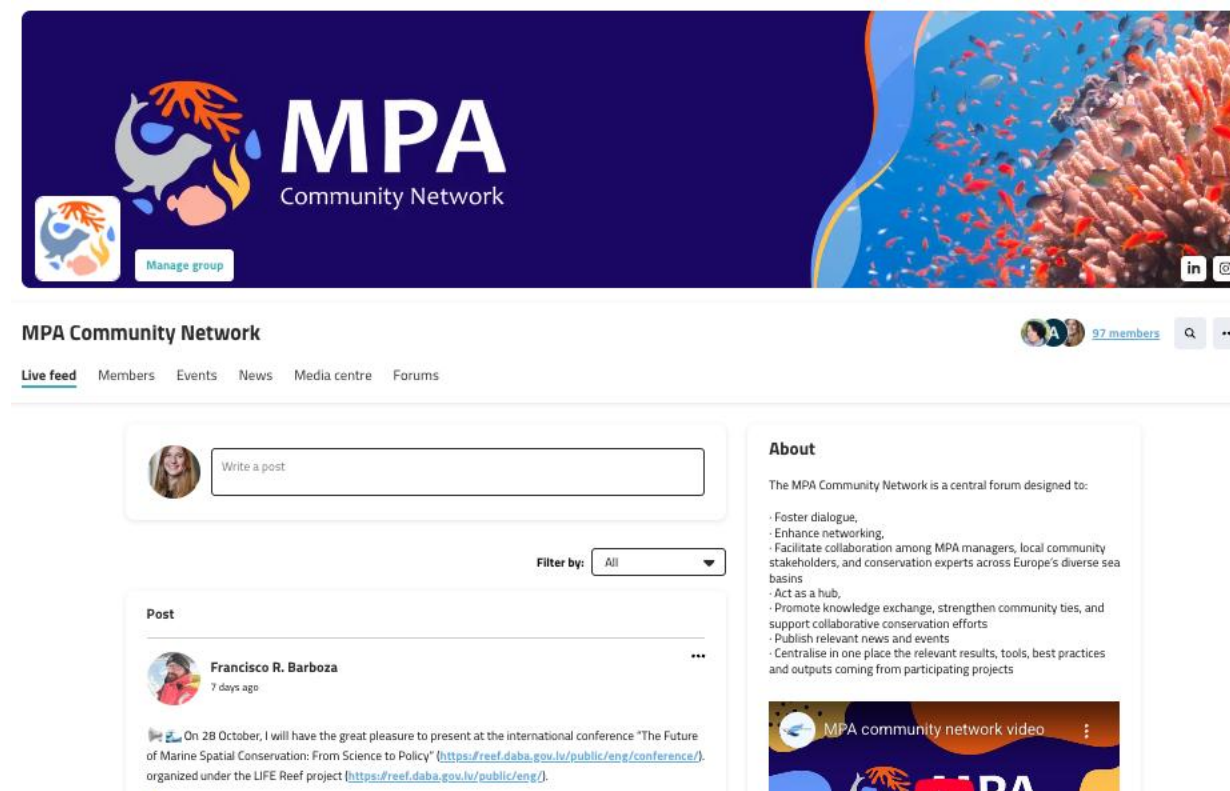

2) THE NETWORKING PLATFORM

BlueBioMatch

It is an **interactive online space** for MPA managers to connect, share experiences, and collaborate with key stakeholders.
