Friends of Ecosystem-based Adaptation (FEBA)

*ADVANCING AWARENESS, UNDERSTANDING AND UPTAKE OF
NATURE-BASED SOLUTIONS FOR ADAPTATION*

Supported by:

based on a decision of
the German Bundestag

About

- **Global Network:** 115+ organizations advancing nature-based solutions (NbS) for climate adaptation.
- **Collaboration Focus:** Prioritizes cross-sector knowledge sharing and partnerships.
- **Knowledge Production & Sharing:** Facilitates expert working groups, publications, workshops, and events.
- **Accelerate NbS:** Aims to boost global adoption NbS in adaptation and resilience through collective action.

FEBA Role, Key Functions & Tools

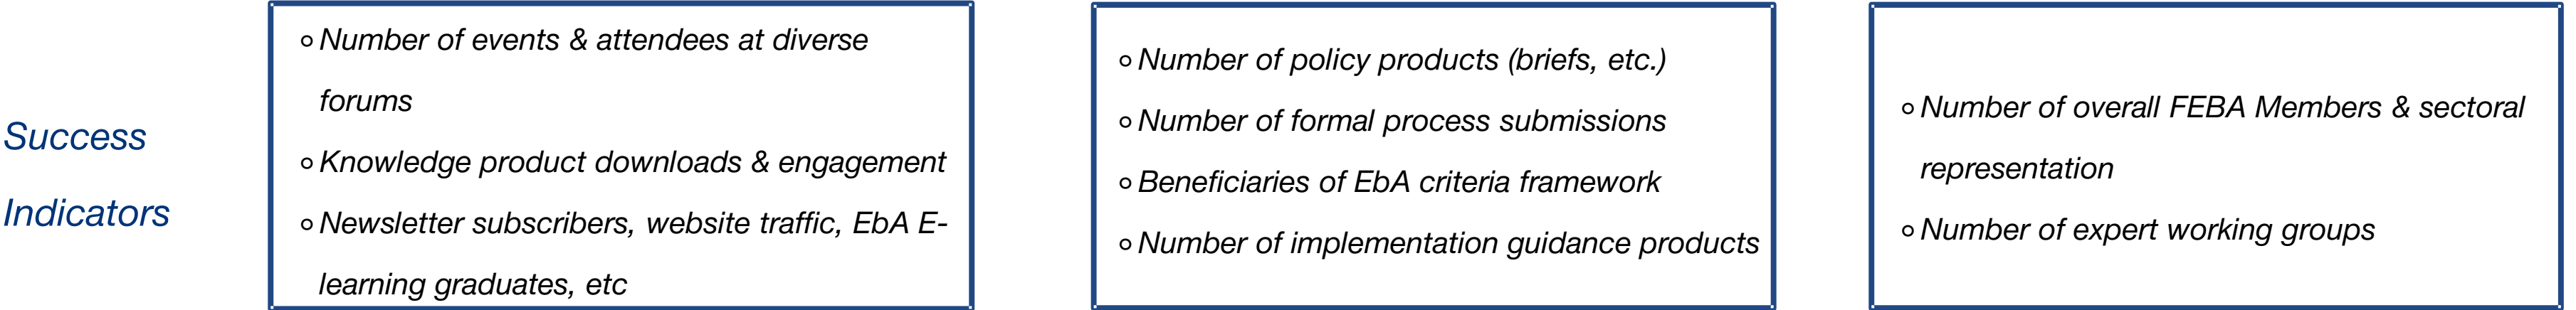

Role *Advance awareness, understanding, and uptake of nature-based solutions in adaptation and resilience efforts around the world.*

(WHO)

Mandate *Enhance knowledge-sharing and lessons learned*

(WHY) *Inform and influence adaptation policy and planning processes*

Improve human climate resilience and contribute to sustainable development

FEBA 2015 - 2025

10+
WGs

120+
Events

50+
Knowledge Products

FEBA has hosted multiple expert working groups that facilitate collaboration and knowledge sharing among diverse organizations, organised high-level events & technical workshops, and produced extensive library of knowledge products, including position papers & technical publications.

Supported by:

the German Bundestag

FEBA Working Groups

Active

- *Biodiversity, One Health & Climate*
- *CBD KM-GBF Target 8 & 11*
- *NbS in Humanitarian Contexts*
- *Psychological Resilience and NbS/EbA*
- *Loss & Damage*

Under formation

- *Nature for Peace*

Collaboration Opportunities

1

Join the FEBA Network through your Organisation via FriendsOfEba@iucn.org

Membership at the organisation-level only

2

Working Groups & Collaborations (e.g., specific Knowledge Products)

3

EbA Knowledge Day 2026 (June 2026. date tbc - in Bonn & online)

4

Stay Connected: [FEBA Website](#)

ENACT – in a nutshell

October 2025

Website

Federal Ministry
for the Environment, Climate Action,
Nature Conservation and Nuclear Safety

Value Addition

- **Knowledge Leadership:** Flagship ENACT reports to elevate the global NbS agenda and highlight ENACT Partners' success in advancing NbS.
- **High-level Convening:** a high-level and high-ambition network of state and non-state actors collaborating to shape the global NbS for climate change agenda across the Rio Conventions.
- **Policy & Monitoring:** Platform for tracking progress toward NbS goals and guidance on evidence-based policy on NbS for climate change, land degradation, and biodiversity loss.
- **Unlocking in-country action and finance for NbS:** Through policy and implementation plans for transformational NbS aligned with NDCs, NBSAPs, LDNs, etc.

ENACT Partners

State Partners

					
South Korea	Spain	EU Commission	Egypt	Malawi	Slovenia
					
Pakistan	Canada	Japan	USA	Norway	Belgium
					
Switzerland	The Netherlands	Germany	Peru		

Non-State Partners

Milestones in 2023 & 2024

Partnership

ENACT has grown to include 23 state and non-state actors, including state Partners from all 7 continents

Policy Engagement

Collaborations with:

- UNFCCC High-Level Champions
- Sharm-El-Sheik Adaptation Agenda
- COP28 Joint Statement on Climate, Nature and People
- COP29 Nature and Biodiversity Day Ministerial events
- COP16 High-Level Ministerial supporting the nature-climate agenda

Global Reports

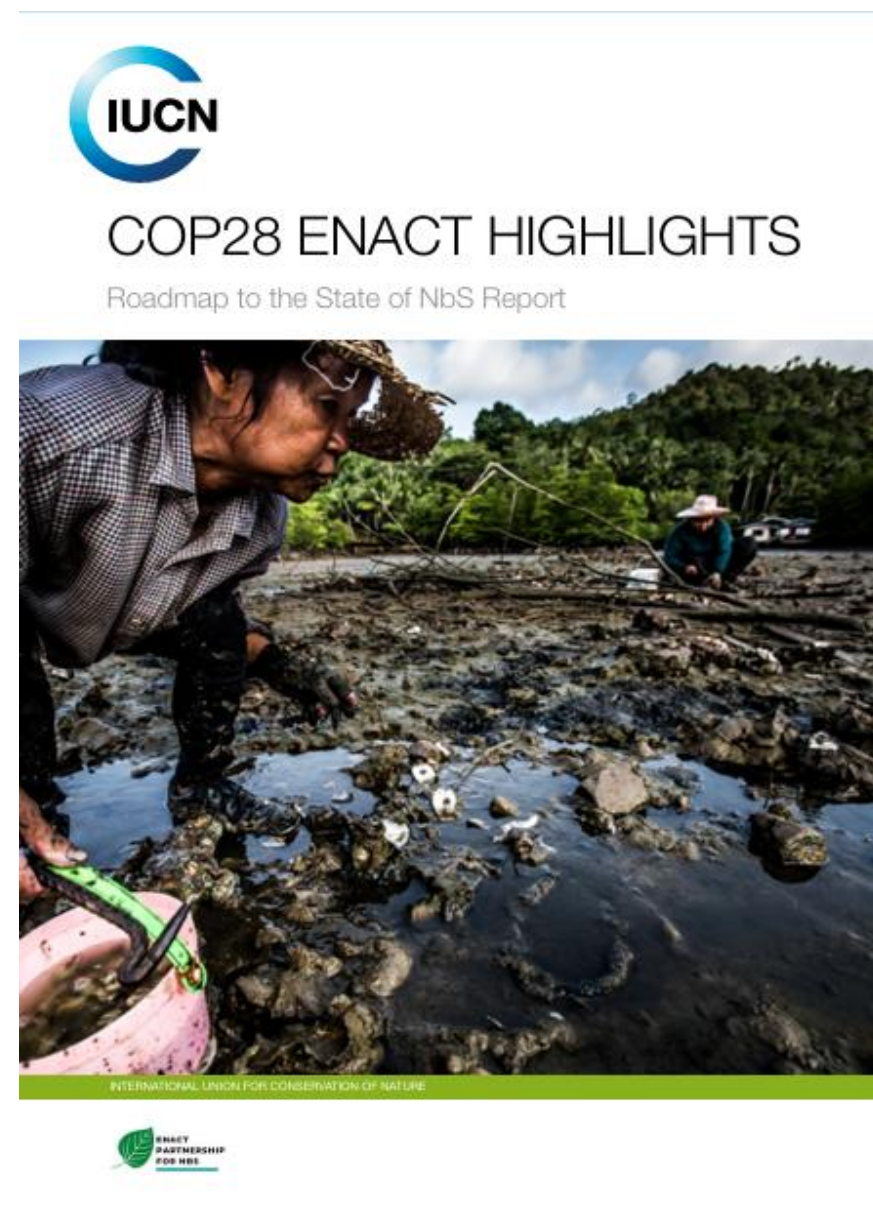

ENACT Partners featured through case studies and snapshots:

- Inaugural [State of NbS Goals Report](#) (2023)
- ENACT [Nature-based Solutions Discussion Paper](#) (2024)

IMPACT

- *Allying state & non-state actors to build a collective voice for the integrated attainment of the Rio Conventions.*
- *Amplifying global recognition of the role of nature in combating climate change at COP29 Nature Day.*
- *Publications key for advancing Rio Convention synergies.*

ENACT Global Reports 2023 & 2024

Set the foundation for the necessary course of action to achieve ENACT's three goals by 2030 aims and facilitate a discussion on the way forward toward the launch of the series in 2024.

UNFCCC COP28 Launch.

Baseline of current knowledge on the ENACT NbS Goals and highlights ENACT partners' success in applying NbS to key ENACT NbS workstreams.

UNEA-6 Launch.

Highlights recent scientific evidence on the effectiveness of NbS actions and recommends clear, action-linked policy proposals to support NbS through and across the Rio Conventions.

CBD COP16 Launch.

ENACT Launches in 2025

Report

NbS Accelerator Pathways

Identifying pathways for accelerating NbS policy, finance and implementation, including through innovative systems transformation.

The report will include partner input and showcasing -- presenting leadership on NbS.

Tracking

ENACT Reporting Methodology

A pilot reporting methodology is under development for tracking Partner progress toward the NbS ENACT goals (climate resilience: goal 1, ecosystem health: goal 2, and global emissions reductions: goal 3). This will align with existing monitoring and reporting frameworks.

Engagement

ENACT Workstreams

Context-specific NbS application efforts organised in workstreams (e.g. water, agriculture, etc.) based on partner priorities and generating policy-focused outputs.
