

Do you want to contribute to shaping a sustainable world as a data expert? If so, you've come to the right place!

To strengthen our team at our Berlin office, we are looking, as soon as possible for a

Data Engineer (with Focus on Finance Data)

(Full-time or part-time)

Our mission is to contribute to a more sustainable world through science, research, and policy advice. We achieve this through national and international projects for clients like the European Commission, Federal Ministries, the German Environment Agency (UBA), various foundations and companies.

As part of our dedicated and skilled Finance Team, you'll play a key role in building the future data architecture of the Institute, contributing to the success of our mission.

Your responsibilities:

- ✓ Responsibility for replacing our existing Tableau based database by setting up a new SQL database or a comparable solution
- ✓ Design, implementation and maintenance of a scalable, secure, and structured data architecture for financial and controlling data
- ✓ Close cooperation with project controlling to understand analytical and control-related requirements and translate them into the data architecture
- ✓ Modeling, transforming, and analyzing complex data sets—focusing on data quality, consistency and transparency
- ✓ Developing and implementing meaningful dashboards and reports, especially with Power BI (including DAX, Power Query, Power Pivot)
- ✓ Working with IT and other interfaces to ensure technical and content data integrity

Your profile:

- ✓ University degree in business informatics or a comparable field
- ✓ Several years of experience in setting up and operating a SQL database or a comparable data management solution – ideally carried out independently
- ✓ Very good knowledge of Power BI (DAX, Power Query, Power Pivot) and Excel
- ✓ Experience in data modeling, transforming, and automating data processes
- ✓ Knowledge of Tableau is an advantage, but not essential
- ✓ Analytical and structured approach to work, high affinity for complex sets of data
- ✓ Knowledge of controlling or finance is a plus
- ✓ Very good language skills in German and English (spoken and written)
- ✓ Strong communication skills and team orientation

What we offer:

- ✓ A permanent contract at an international, non-profit research institute
- ✓ Creative freedom and the opportunity to significantly shape and influence the institute's entire data landscape
- ✓ Excellent cooperation with a dedicated, interdisciplinary team
- ✓ Individual training, education opportunities, and a culture of feedback

Ecologic Institut

Ecologic Institute is a private and independent academic think tank dedicated to the task of working on relevant policy issues in the field of sustainability research and introducing new findings to environmental policy. Founded in 1995, Ecologic Institute is part of the Ecological Research Network ([Ecornet](#)) and closely linked to international networks like [Think Sustainable Europe](#). Today, more than 100 staff members work in international and interdisciplinary project teams.

Interested?

Please apply with:

- ✓ Letter of motivation (what triggered your interest in the advertised position and why?)
- ✓ CV
- ✓ Certificates
- ✓ References
- ✓ Your salary expectation

Please apply [online](#) only.

Deadline: September 12, 2025

We look forward to your application!
